# Problem

**Core Problem** : Electronics Setup is Fragmented  
Today companies deal with: Separate consultants  
Different manpower agencies, Independent  
certification bodies, Technology vendors, Lean  
experts, HR advisors , no structured value / ROI  
driven training program.

**Struggle with** : Delayed plant setup, Wrong  
technology selection, Skilled manpower shortage,  
Compliance & certification delays, Culture &  
Discipline, Inefficient processes, Poor Lean & TPM  
culture, Cybersecurity risks, Weak business  
development pipeline , blame games , work after  
followup culture.
