

Zillion Integra ESDM

Zillion Integra is a global integrated execution platform for Electronic System Design & Manufacturing, delivering single-window accountability from land acquisition to global market expansion — enabling enterprises to build scalable, compliant, and globally competitive manufacturing ecosystems.

START SLIDE

Welcome Message

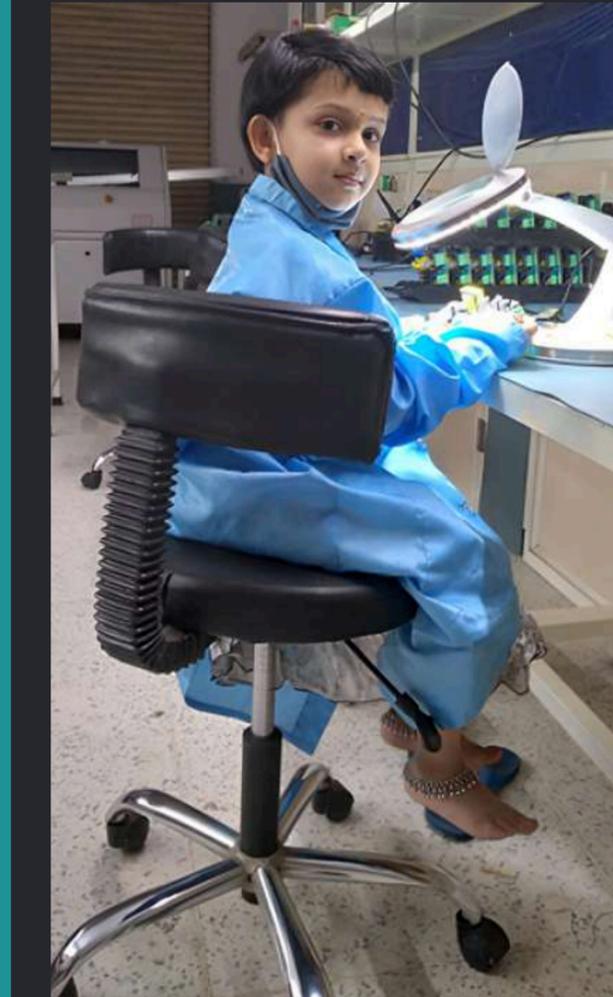

A Strategic Division of *Zillion Link Private Limited*. We provide end-to-end integrated solutions for:

- Electronic System Design & Manufacturing (ESDM)
- Electronic Manufacturing Services (EMS)
- Semiconductor & EV Electronics
- Global EMS & OEMs entering India

Our Vision

To build India's most execution-driven ESDM ecosystem platform.

[LEARN MORE](#)

Problem

Core Problem : Electronics Setup is Fragmented
Today companies deal with: Separate consultants
Different manpower agencies, Independent
certification bodies, Technology vendors, Lean
experts, HR advisors

Struggle with : Delayed plant setup, Wrong
technology selection, Skilled manpower shortage,
Compliance & certification delays, Culture &
Discipline, Inefficient processes, Poor Lean & TPM
culture, Cybersecurity risks, Weak business
development pipeline

Integrated Solution

Phase 1 – Infrastructure & Policy

- Land acquisition advisory
- Government scheme alignment
- CAPEX planning

Phase 2 – Technology & Setup

- SMT / Through-hole / Box Build line design
- Equipment selection
- Process engineering
- Cyber security architecture

Phase 3 – People & Systems

- Skilled manpower deployment
- Skilling & certification
- HR function setup
- ERP & documentation

Phase 4 – Operational Excellence

- Lean & TPM drive
- 5S certification
- ISO / IATF / System certification
- Sustainability & ESG

Phase 5 – Business Acceleration

- Market entry strategy
- Business development support
- Global customer alignment

What Makes Us Different

Why Zillion Integra

- Execution-driven model
- Multi-domain expert ecosystem
- Industry 4.0 readiness
- Cluster development capability
- India + Overseas project experience
- Skill ecosystem development capability

■ **We don't deliver reports., We deliver running factories.**

Target Segments

We serve

- EMS companies scaling operations
- Global OEMs entering India
- Semiconductor startups
- EV electronics manufacturers
- Defense electronics firms
- MSMEs upgrading to global compliance

Engagement Models

- Turnkey execution
- Joint venture partner
- Strategic advisory with on-ground execution team

Revenue Streams

Project-based integrated setup
Retainer-based operational support
Success-fee linked execution
Skill ecosystem partnerships
Certification & Lean implementation
International market entry advisory

- Execution + Advisory
- Fully integrated
- Ecosystem development
- Single window accountability
- Skilled manpower pipeline

Strategic Impact

For Clients

- Faster time to market
- Skilled workforce pipeline
- Reduced CAPEX risk
- Compliance-ready operations
- Improved productivity & OEE
- Export-ready manufacturing

For India

- ESDM cluster development
- Job creation
- Global competitiveness
- Semiconductor ecosystem strengthening

Growth Vision 3-Year Strategic Goal

- Develop 10+ ESDM factories
- Enable 5 global OEM setups
- Create 10,000+ skilled workforce pipeline
- Build 2 ESDM clusters
